STEM Academy Summer Program

Science and Technology Magnet High School of Southeastern Connecticut hosts STEM Academy Summer Program for ALL incoming freshmen.

June 25, 26, 29 & 30
8:30 AM to 2:30 PM (lunch included)
August 17 – 21st
8:30 AM to 2:30 PM (lunch included)

The STEM Academy will provide the incoming freshmen class students with a new awareness of the principles of science, technology, engineering and math in a learning lab environment. The nine days of instruction includes fun, confidence building activities designed to inspire and influence students and to prepare them for their high school years at STMHS. This program is strongly recommended for incoming freshmen and is an initial kick-off to the freshmen curriculum.

More information on these exciting educational days will be forwarded to you soon.

Transportation will **not** be provided for this program.
