The Science and Technology Magnet High School of Southeastern Connecticut (STMHS) is a regional comprehensive high school program which specializes in unique STEM area (science, technology, engineering, and mathematics) programming. Students can major and minor in different focus areas. Unique integrated blended programs can also accommodate unique student interests and career paths within the STEM areas. The STMHS program is designed to prepare students for success in STEM area Post Secondary Institutions eventually leading students to earn a 2 - 4 year degree.

Four STEM Focus Areas:

- A. Biomedical Sciences
- B. Engineering
- C. Environmental Science
- D. Technology

The Science and Technology Magnet High School of Southeastern Connecticut prepares students to succeed, not just during their four years of high school, but for a future beyond the magnet school. The program integrates core concepts across all disciplines and incorporates technology every step of the way. STMHS has rigorous education standards and the staff continuously identifies and develops each student's creativity and educational potential.

Points of Pride:

- Curricula based on national, state and industry standards
- Science, Technology, Engineering, and Math are integrated into all academic areas
- Project-based learning so that academic concepts are understood within the context of real-world situations
- A personal educational plan for every student
- Access to technology through numerous classroom computers, computer labs and mobile multimedia stations
- Award winning building that is an educational mall for learning
- Teachers that are dedicated and passionate for what they do and rate among the most experienced in the state of Connecticut

To be part of this unique experience in southeastern Connecticut, attend the open house or register for a guided tour by calling 860.437.6496. Visit our website at www.nlstmhs.org
